## Spring It Is Almost Here

WHAT A 2020! YOU NEVER KNOW WHAT WILL HAPPEN FROM ONE DAY TO THE NEXT. ON A BRIGHTER NOTE, WHEN WRITING THIS I HAVE ANOTHER GRANDCHILD COMING - DUE WITHIN THE NEXT COUPLE OF WEEKS. THAT WILL MAKE #5, AND WILL BREAK THE TIE. WE HAVE 2 GRANDDAUGHTERS AND 2 GRANDSONS. CAN'T WAIT! OUR NEW GRANDCHILD WILL BE ADDED TO SCOTT, OUR SHOP FOREMAN, HIS WIFE MICHELLE, AND THEIR SON CHARLIE (WHO I CALL HURRICANE).

CARS DON'T CARE WHAT'S GOING ON IN THE WORLD AND NEED TO BE MAINTAINED. OUR ROADS ARE BRUTAL AND WINTERS ARE HARD ON YOUR VEHICLE.

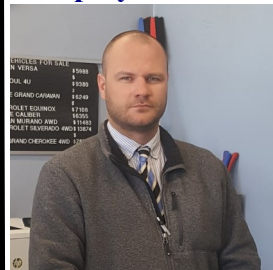

LANPRO'S MOTTO IS "ULTIMATE CAR CARE SO YOU CAN HAVE SAFE AND BREAKDOWN FREE DRIVING". LANPRO AUTO'S GOAL IS TO ASSURE THE MOBILITY OF OUR CLIENTS THROUGH THE CARE, MAINTENANCE AND REPAIR OF THEIR CARS AND TRUCKS.

WE DO THIS BY UNDERSTANDING AND ANTICIPATING THEIR WANTS, NEEDS, AND EXPECTATIONS ALMOST BEFORE THEY DO.

AND THEN BY MEETING OR EXCEEDING THOSE WANTS, NEEDS, AND EXPECTATIONS EACH AND EVERY TIME SERVICE IS DELIVERED.

CONTINUED ON PAGE 3.....

### Employee Profile

### Congratulations & Thank you Matt Skinner for 10 years of working with us!

#### 10 Years at Lanpro already, Wow!

How time flies when you're learning and having some fun as well.

How vehicles have changed over the years, how different life is now.

I've made a lot of friends with clients and co-workers over the years, what a great place to work!

I can't wait to watch Lanpro grow even more, and do more growing of my own just like I have the last 10 years.

From the front counter at Lanpro to all of you at home, thank you!

**"Ultimate Car Care So You Can Have Safe and Breakdown Free Driving"**

## Is Your Car Making You or Your Passengers Sick?

Patented  
& EPA  
Approved

While any confined space that is frequented by people is prone to microbial activity, increased vehicle use, the popularity of ready-to-eat food and our habit of consuming it in our vehicles, as well as other lifestyle changes, have put drivers and passengers at greater risk of infection. And for motorists whose passengers include those with four legs, or someone who may be ill, wearing dirty shoes or dirty clothes, or even if that extra passenger is nothing more than a bag of trash from your last snack, the risks skyrocket.

Safe For  
**Children  
Adults &  
Pets**

Worse yet, there's been little opportunity to improve this situation. While there is a wide range of upholstery, carpet and other surface cleaners on the market expressly formulated for automotive interiors, very few offer any microbial protection. And, even if they did, it would be all but impossible to thoroughly treat a passenger cabin's many different areas, components and materials with them, let alone under its seats and dashboard or throughout its heating, air conditioning and ventilation system's duct work. Further, any disinfection provided would be very temporary, disappearing completely the instant the product dried.

Until Now!

### A Safe Solution

PermaSafe is a state-of-the-art, Vehicle Disinfection and Long Term Microbial Control System and Surface Protectant engineered specifically for automotive use. Effective on all interior surfaces, a PermaSafe System installa-

**Kills  
99.999%**  
of Bacteria on Hard,  
Non-Porous  
Surfaces

-tion starts with an initial disinfection of your vehicle's passenger cabin, air ventilation system and duct work, trunk and other cargo areas. Our proprietary, eco-friendly and **EPA approved disinfectant eliminates over 99.9% of germs, bacteria, viruses, fungi, mold, mildew and other harmful microbes** that can be hazardous to passenger health, while also removing allergens and odors.

Once clean, disinfected and deodorized, the spaces and surfaces are then blanketed with PermaSafe SHIELD our patented Permanent Antimicrobial Surface Protectant.

While effective antimicrobials are not new, PermaSafe SHIELD's ability to *continuously* eliminate and control microbes, and do so through a purely physical or "mechanical" process without the use of any harmful chemicals, is *revolutionary*.

### The Science Behind PermaSafe

**Upon application, the patented antimicrobial agent in PermaSafe SHIELD chemically reacts with, and molecularly bonds to, the surface to which it is applied, becoming an integral and permanent part of that surface.**

As the coating dries, millions of microscopic antimicrobial "spike-like" appliances form and extend from the surface. These "spikes" are actually long chains of positively charged

atoms, and represent a deadly dual threat to microbes.

Continuous  
**24/7**  
Protection

Permanent  
**Perpetual**  
Protection

### Permanent Perpetual Protection

Once cured, the antimicrobial coating is invisible and completely harmless to humans, yet extraordinarily effective at eliminating harmful microorganisms. Because the cell walls of harmful microbes are negatively charged, they are drawn toward and pulled onto the positively charged antimicrobial spikes by electrostatic attraction. **Destruction is instantaneous and complete as the antimicrobial spikes both rupture the microbes' cell walls and "vaporizes" them by delivering a powerful electrostatic charge.**

**Kills  
99.9%**  
of Bacteria on  
Carpet

### Multi-Faceted Protection

More than just a unique antimicrobial, PermaSafe SHIELD is also a highly durable surface protectant that repels liquids, making treated areas resistant to stains and easy to clean, while protecting interior upholstery, fabric and carpet from fading, degradation and discoloration. The PermaSafe System also effectively eliminates odors, such as those caused by bacteria, tobacco smoke, pet urine and other problem sources.

Available only from authorized automotive sales and service facilities, **PermaSafe's EPA approved products are applied with specialized "fogging" equipment that atomizes and propels them throughout a vehicle's passenger cabin, heating and air conditioning ductwork and storage spaces, ensuring complete 360° coverage for every surface.**

**Non-Toxic  
&  
Ecofriendly**

## Up Coming Winnipeg Events

Due to current circumstances - no upcoming events to report at this time.

## Jalapeno Cheddar Dutch Oven Crusty Bread

A rustic Jalapeno Cheddar artisan loaf baked in a Dutch Oven

Makes 1 Loaf

### For the Dough

3 cups all-purpose flour  
1 TSP yeast  
1 TSP salt  
1 cup cheddar cheese, finely cubed  
1 large jalapeno, chopped  
1 1/2 cups warm water

### To add in the last 10-15 of baking

3 TBSP cheddar cheese, grated  
6 thin slices of jalapeno  
2 TBSP chopped fresh parsley

### Instructions:

In a large mixing bowl, whisk together flour, salt & yeast. Fold in the cheese & jalapeno, until well coated. Add the water & stir until a shaggy mixture forms (mixture will be loose & sticky; this is what you want). Cover bowl with plastic wrap & set aside for 12-18 hours (up to 24). Overnight works great.

Preheat oven to 450 F. Place a cast iron dutch oven with a lid in the oven & heat the pot for 30 minutes. Meanwhile, transfer the risen dough onto a heavily floured surface (Mixture will be sticky; **do not knead**) & lightly, gently shape into a round loaf. Remove the hot pot from the oven, remove the lid, and carefully set the dough inside. Cover the Dutch oven and return it to oven for 30 minutes. Then, remove the lid, sprinkle the top of the loaf with grated cheddar and jalapeño slices, and bake an additional 10-15 minutes until golden and crisp. Carefully remove the pot from the oven and place the loaf on a cooling rack to cool. Best enjoyed warm, fresh from the oven.

.....CONTINUED FROM PAGE 1

**PERMASAFE**, THIS IS SOMETHING THAT ISN'T FOR EVERYONE. I'M SURE YOU HAVE THOUGHT "LANCE, YOU WANT ME TO BELIEVE THIS WILL KILL THE COVID 19 VIRUS." THAT'S A QUESTION I CAN'T ANSWER FOR SURE. BUT EPA TESTED IT AND SAID IT KILLS 99.9% OF GERMS, BACTERIA, VIRUSES, FUNGI, MOLD, MILDEW AND OTHER HARMFUL MICROBES. IT OBVIOUSLY HASN'T BEEN TESTED TO SEE IF IT WILL KILL COVID 19 YET, BUT WE DON'T KNOW IF IT DOES ALSO. THE OTHER BENEFITS ARE: WE KNOW IT KILLS OTHER FLU AND VIRUSES WHICH IS A HUGE BENEFIT.

**WHAT IS YOUR FAMILY'S HEALTH WORTH?** TILL THE END OF JUNE WE HAVE AN INTRODUCTORY OFFER.

OUR MAIN PARTS SUPPLIER HAS A PROMOTION ON - BRAKE SHOES, PADS, DRUMS, AND ROTORS, AND FRONT END SUSPENSION PARTS. WE ARE PASSING THE SAVINGS ON TO YOU TILL THE END OF JUNE.

CALL TODAY TO SET UP A TIME FOR YOUR SPRING MAINTENANCE, 204-783-5802.

WARMLY,

LANCE REINHIMER  
PRESIDENT

P.S. I HOPE EVERYONE IS WELL AND STAY SAFE.

P.S.S. **15% OFF** BRAKE PARTS AND FRONT END PARTS

P.S.S.S. PERMASAFE INTRODUCTORY OFFER **\$35.00 OFF**

## Thank You for Your Referrals

Along with the Gift Certificates they have received, all were entered to win an iPad. (1 in 10 chance to win).

# On The Lighter Side

## JOKES OF THE DAY

Q. Why did the teddy bear skip lunch?  
A. Because he was stuffed!

Everybody knows 40 is the new 30, right?  
But the police officer giving me a speeding ticket couldn't be persuaded!

A man visits his doctor and complains that he feels like he has 5 legs. The doctor asks him how do his pants fit? The man replies, "Like a glove!"

A young boy was looking through some old family photos & asked his mother, "Who is the guy on the beach with you with all the muscles & curly hair?"

"That's your father"

"Then who's that man who lives with us now?"

Q. Why did the farmer feed his pigs sugar & vinegar?  
A. He wanted sweet & sour pork!

Wife: "What are you doing?"

Husband: "Nothing"

Wife: "Nothing? You've been reading our marriage certificate for an hour."

Husband: "I was looking for the expiration date!"

Due to quarantine... I'll only be telling inside jokes!

Q. What do you call a dinosaur fart?

A. A blast from the past!

You know what really makes me sick? The Flu!

I trained my dog to fetch me beer.... It may not sound too impressive, but he gets them from the neighbors fridge!

"What do you get if you cross a fridge & a stereo?"

"I don't know, what?"

"Cool music!"

Why did the chicken cross the road?

He was practicing good social distancing.

Q. What kind of music do Christmas elves like the best?

A. Wrap music!

**Criminal so  
Hilariously Inept,  
he made the News**

Amateur criminal and professional dumb dumb Christopher Kron made every mistake possible in robbery history when he tried to rob a restaurant after it closed one night

Not only did he trip the silent alarm, but when ADT called the restaurant after being notified, Kron answered the phone and gave them his REAL NAME. He returned to the restaurant the next day and was recognized by an employee who had seen the surveillance video.

Kron was arrested on the spot.

A woman was driving down the street & got stopped by a police officer. "May I see your drivers licence? He said. She looked at him with disgust. "What's the matter with you guys? I wish you'd make up your minds. You took my licence from me yesterday!"
