32 Year Anniversary

Unbelievable that on October 13, it will be 32 years since I opened Lanpro Auto. I can't believe that 32 years have gone by, on one hand it seems like I've had Lanpro for ever, but when you say 32 years, I can't believe that many years have gone by.

Thank you, thank you, thank you, to all of you that have supported Lanpro over all these years I really appreciate it. It is because of you that Lanpro is where it is today.

Now for the future, we are looking at electronic inspections, which would allow us to send you videos and pictures of the condition of your vehicle. One thing that is very.....continued on page 3

1st 11 Day Holiday in 32 Years!

My wife, Leanne and I took the longest trip ever, since I started Lanpro Auto.

We drove out to Wynnadel, B.C., which is on the side of a mountain, close to Creston B.C. This is where my brother Larry and my sister-in-law Myra live, which has a crazy nice view of the valley.

Larry, his son Dennis, his friend Kurt, & I went fishing in the Kootenay Lake. I haven't fished in about 20 years. The water was like glass, which was surprising because the lake is huge (60 miles long & 400 ft. deep). I caught the 1st fish, which was a White Fish, that we didn't keep. We did keep the 1 Rainbow Trout of the 3 fish we caught.

Holiday... con't from page 1....

We spent 7 days in Wynndel, and then the 4 of us went to Waterton National Park in Alberta.

In Waterton we did lots of hiking and went up the side of a mountain to the

Bears Hump, which showed me what terrible shape I'm in, but I made it. We had a spectacular view of the Waterton townsite, the lake and mountains.

We then rented E-Bikes, which were an absolute riot. We went on the Kootenai

Brown Trail with the E-Bikes. With pedaling we hit speeds of 47 kmh. It was a lot of fun! We went 30 kms in one hour.

We spent 3 days in Waterton and then drove home. I would recommend Waterton National Park over Banff National park all day long.

difficult in this job, is explaining how bad or good a problem may be. With pictures and videos it will make it a lot easier, as we will actually be able to show you what we are trying to explain. Some parts of technology are quite exciting.

This summer was extremely hot, which most people think isn't hard on your vehicle, but actually it puts a lot of strain on most of the components in your vehicle.

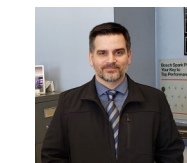

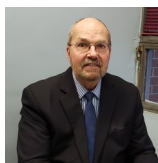

Beat the rush and get your Fall/Winter maintenance done early.

I would recommend everyone do a Fall/Winter Tune Check Up, which includes an Oil & Filter Change. Make sure your vehicle is ready for the cold and snow. You don't want to be left stranded when it is freezing out.
