Happy Father's Day

Wishing all you father's all the best on Father's Day. Spend time with your father and family while you can, as the day will come when he won't be around anymore.

It's been crazy hot, which is great when you have a place at the lake, (except for the mosquitoes and black flies), especially if you have a pontoon boat to cruise around on.

I bought a quad for the lake which has been a godsend since I had my pulmonary embolism. Climbing the hills are really rough while I'm still recovering. The good part is I am starting to feel a lot better in the last month.

(Alex), Duc Quang Bui is back from Vietnam and is working as a technician with us again.

The heat puts a strain on just about every part of your vehicle. Before you start going on road trips or holidays, have a summer/Pre-Vacation Tune Check Up done. That way you can have safe and breakdown freecon't on page 3

ENGINE

PREMIUM OIL SYSTEM CLEANER

THE PROBLEM:

Normal engine operation produces unburned fuel, sludge, varnish, metal particles, salts and acids. Your engine oil becomes saturated with these byproducts of combustion and over time they wear the oil pump's machined components as well as the bearing surfaces in the engine.

As these byproducts accumulate, they form deposits which buildup and lead to the possible restriction of oil flow.

Not all of the used, contaminated oil is drained during an oil change. Used oil that is left behind is one of the major causes of sludge and harmful varnish deposits that accumulate over time, immediately contaminating new oil added. Without cleaning the crankcase periodically, the new oil will pick up the old deposits and sludge and keep them circulating through the engine.

Many of the oil system cleaning products on the market can cause more harm than benefit. Some of these products rely on harsh chemicals to dissolve sludge. These solvents break down the lubrication properties of the engine oil during the cleaning process, leaving the engine unprotected and exposed to these harsh chemicals during the entire service.

THE SOLUTION:

Wynn's® Premium Oil System Cleaner safely dissolves and suspends engine oil deposits throughout the engine, from the valves to the oil pan. Optimum lubrication is provided for with this formula that includes extreme pressure lubrication agents. These agents are metal conditioners that provide additional anti-wear protection from metal-to-metal contact during the cleaning operation.

- Wynn's® Premium Oil System Cleaner has been developed with a careful blend of solvents that cleans and conditions the crankcase.
- Improves compression and reduces oil consumption resulting from blocked or restricted return drain holes in the cylinder head. If left unchecked, this condition could also cause oil starvation, resulting in engine seizure.
- Helps dissolve and thin highly oxidized oil, allowing a more complete drain of the used oil, effectively reducing the contamination of the new oil.
- If used regularly, Wynn's® Premium Oil System Cleaner reduces the formation and accumulation of deposits which, over time, can block oil lines and restrict proper lubrication.

Garlic Parmesan Wings (Crispy and Baked)

Prep Time: 5 minute Cook Time: 55 minutes Total Time: 60 min 24 Wings

Ingredients:

1 TBSP garlic powder
1 TSP onion powder
1 TSP salt
1 TSP pepper
1 TSP smoked paprika
2 LBS chicken wings
2 TBSP olive oil

Garlic parmesan wing sauce

1/4 cup melted butter
5 cloves garlic, minced
1/4 cup parsley, chopped
1/4 cup parmesan cheese, grated

Instructions:

1. Heat oven to 400F, with rack in middle of oven
2. In a small bowl, mix together garlic powder, onion powder, paprika, salt and pepper.
3. Place chicken wings in a baking dish and sprinkle with spices, coating them well. Pour the olive oil over wings, bake for 45 minutes.
4. While wings are cooking, add butter to a small pot and place on low heat. Add the garlic and parsley, stir until garlic is fragrant. Remove from heat.
5. When wings are cooked, remove from oven. Pour the garlic sauce mixture over the wings and sprinkle with parmesan cheese. Bake for 5 more minutes until wings become crispy and brown.

driving. Nothing ruins a holiday worse than sitting on the side of the road broken down. I wish, if you do the check up, that I could guarantee you won't have trouble but it will hopefully limit the chances.
